# ST. ANGEL'S GLOBAL, GURUGRAM-70A

The mission of St. Angels Global is to nurture active and creative minds, fostering a deep sense of empathy and understanding towards others, and instilling the courage to act upon one's beliefs. This is achieved through a commitment to world-class education, the promotion of knowledge creation, and the cultivation of essential life skills.

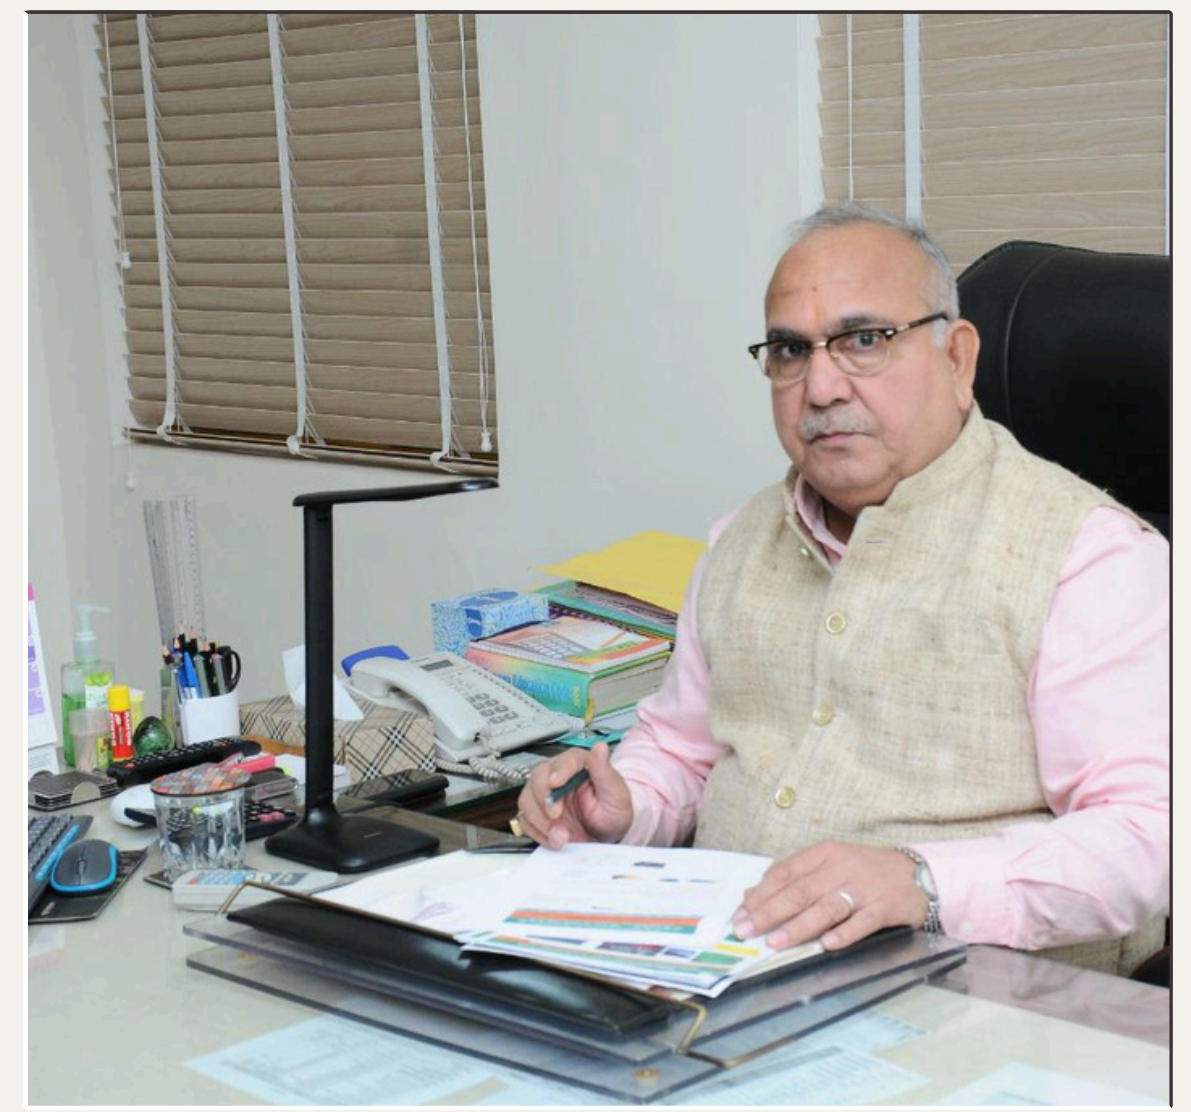

## Message by Chairman **Shri Ashutosh Bhardwaj**

Holding the beacon of excellence, dedication, positivity and understanding, St. Angel's surges ahead, setting its goals higher and higher in the horizon of success. For this reason, the school has become a desired destination for students. Winning starts with our beginning. Our thinking creates our positive world. When our thinking is governed by moral values, like truth, righteousness and feeling of brotherhood, a personality of strong moral character emerges in the society.

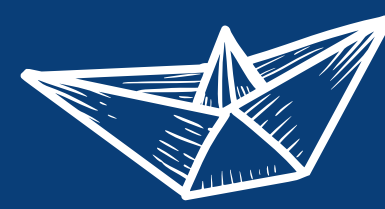

My first and foremost priority is, to provide our students with every opportunity to be understanding in their future studies. My perception is not just about acquiring knowledge of subjects taught in the classrooms. It is a lifelong exercise that can be unbelievably exciting, if we wish to jump onto the train of experience and take a trip to every road and corner of the earth. My endeavour is to provide wings of wisdom to our children to soar high in the sky of knowledge.

Dear parents your role, too, is indispensable in the life of the children. You must nurture the children in such a way, that they must uphold the time tested values to manifest their wisdom. The present generation is bristling with new concepts and is eager to invent and innovate. Let the wisdom of the scholars pervade into ever widening stream of knowledge. To disseminate it, I attempt to provide the conditions, in which my Angelites learn the lesson of life, apart from curriculum assigned to them. I always motivate my students by saying that, 'The deeper you dive, the more gems you discover. Success comes to those who work hard and stays with those who don't rest on laurels of the past.

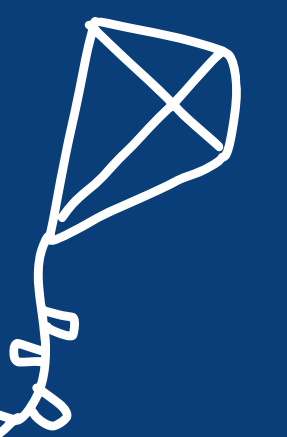

With consistent support of the parents, contribution of the students and above all the grace of Almighty, I make certain that I will put my incessant efforts to provide quality education in this temple of learning.

# EDUCATION IN PRIMARY

In classes I-VII, students are taught English, Hindi, Mathematics, General Science, and Social Studies. For classes I-II, Environmental Studies replaces Social Studies. The Continuous and Comprehensive Evaluation (CCE) system is used to assess students. The primary curriculum includes brain development courses to boost IQ, as well as defense activities like karate, dance, music, sports, and Scout Guide. Students are also encouraged to engage in research through projects and independent thinking. Various forums are provided for students to showcase their talents and skills through competitions, inter-house activities, and cultural programs. Experimental learning is further enhanced through field trips. The teaching methodology is "LEARNER CENTERED," focusing on promoting multi-intelligences and academic excellence, with significant emphasis on developing communication skills and the overall personality of each child.
